RE: US Ecology Idaho (USEI) Site B - IDD073114654
Outdoor Stabilization Facility - Subsequent to Blast Incident

Dear Ms. Creed:

This letter is to certify that US Ecology Idaho Site B - Outdoor Stabilization Facility is intact and ready to commence operations. The unit received minor damage to ancillary features during the blast incident ("Incident") which occurred on 11/17/2018 at the indoor stabilization unit. However, the waste treatment assets associated with the Outdoor Stabilization Facility did not receive any structural damage during the Incident.

Since 11/17/2018, all necessary repairs to the Stabilization Facility have been completed and the area is acceptable for waste processing at this time. If you have any questions or comments, please contact me at (208) 319-1620.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Regards,

4/2/2019
